Exclusively at **MENARDS**®

A Drywall PVA Primer/Sealer (P001)
This high-hiding primer and sealer in one prepares drywall, smooths sanded joints and provides excellent holdout when used under enamel topcoats.

B Quick-Dry Alkyd Stain-Blocking Primer/Sealer (P008)
This stain-blocking alkyd blocks tenacious ink, odors, smoke and water damage stains while smoothing surface imperfections with a fast-drying formula.

C 10 Series (10, 15, 30)
This maintenance-grade paint is ideal for jobs where cost is a key factor. It provides good touch-up, hide and can be tinted in all pastel colors.

Available in Flat, Eggshell, and Semi-Gloss.

D 100 Series (100, 150, 200, 300)
This product is perfect for high-production jobs, delivering very good hide and excellent touch-up.

Available in Flat, Eggshell, Satin and Semi-Gloss.

E 1000 Series (1000, 1500, 2000, 3000)
A premium-grade paint that provides excellent hide, outstanding touch-up and a washable, scrubbable finish.

Available in Flat, Eggshell, Satin and Semi-Gloss.

F Cabinet & Trim Enamel (3500)
With excellent flow and leveling properties, this ultra-premium, non-blocking enamel provides a smooth, hard, washable coating that is resistant to grease and stains.

Available in Semi-Gloss only.

G All-Surface 100% Acrylic Stain-Blocking Primer (P007)
This 100% acrylic, stain-blocking primer is ideal for interior and exterior jobs and easily blocks tannins and bleeding wood, as well as a variety of stains on various substrates. It can also be used as a fast-drying primer on galvanized metal or under oil-based paints.

H Elastomeric Stucco & Masonry Paint (5500)
Formulated specifically for stucco and masonry surfaces, this interior/exterior flat coating offers elastomeric properties while including alkali resistance and long-term durability.

Available in Flat only.

I Acrylic High Gloss (8000)
A direct-to-metal (DTM), 100% acrylic gloss coating that offers a tough, durable, flash-rust and corrosion-resistant finish.

J Alkyd Gloss (8500)
This direct-to-metal (DTM) alkyd gloss coating offers a tough, durable corrosion-resistant enamel finish. The high-solids, high-gloss formula is highly resistant to abrasion, corrosion and a variety of chemicals.

K Acrylic Prime & Finish (P801)
This durable, flash-rust and corrosion-resistant industrial coating provides excellent adhesion to slick surfaces, such as brushed and polished aluminum, fiberglass, PVC and gloss enamel coatings.

L Alkyd Rust Control Metal Primer (P851)
A tough, fast-drying, rust-inhibitive primer that is ideal for use over bare, previously coated or rusted steel surfaces. This high-solids primer may be used under both water-based and oil-based topcoats and as a barrier coat over conventional coatings when painting with high-performance topcoats.

M Acrylic Gloss Floor Enamel (9400)
This ultra-durable, acrylic floor coating is designed to resist scuffs, marks and wear in high-traffic areas. The fast-drying formula is ready for foot traffic in just 24 hours, making it ideal for commercial areas requiring quick return to service.

N Traffic Marking Paint (9600)
A quality, flat, acrylic, water-based traffic marking paint designed for striping parking lots and streets, as well as traffic and vehicle control areas. Can be used on concrete and asphalt surfaces.

O 5000 Series (5000, 6000, 7000)
A 100% acrylic exterior premium-grade paint that offers a durable coating with low temperature application (down to 35 °F).

Available in Flat, Satin and Semi-Gloss.
